

Jokari Cable Strippers with Built in Stripper

Product Images

Description

The Jokari Cable Strippers with Built In Stripper offer a simple, quick, precise and safe method for removing outside insulation from standard cables. The Cable Strippers are lightweight yet strong and durable, and are constructed from a high grade, wear resistant polyamide construction. A built-in Knife adds additional convenience

- The cutting depth of the knife can be exactly adjusted, eliminating any damage to the inner conductor
- The cutting knife swivels automatically from circular to longitudinal cutting in order to completely remove the stripped cable end
- Each cable stripper contains a spare blade in the handle
- Spring loaded guard opens to accommodate cable
