

Teledyne Stripall Thermal Wire Strippers

Product Images

Description

The Stripall Thermal Wire Strippers are suitable for general production work, and are completely self-contained. The Thermal Wire Strippers are a dependable tool and combine high production rates with consistently high wiring reliability

- Ideal for working with fine gauge wires
- Long-life rugged alloy blades heat to temperatures of 926°C in less than two seconds
- They also cool instantly, eliminating the need for special racks or holding clips and provide complete operator safety
- Adjustable stops for both wire gauge and strip length
