

Delvo Controller for 30/45/70 Brushless Screwdriver

Product Images

Description

The Delvo Controller is designed for 30/45/60 Brushless Screwdriver featuring a universal input voltage from 100 to 240 V AC for convenient installation

- Controller provides soft start function preventing screw heads from possible damage by the disengaged bit
- Stepless speed adjustment function widens the speed from 390-2,000 for various applications
- Start, torque-up and reverse are the controller outputs carried via a dry contact method.
- Allows for easy calculation of tightened screws and preventing any screw tightening errors
- Added safety features includes applying 24 V DC to the designated terminals on the controller, bringing the screwdriver to an immediate stop in emergency cases
- Can be installed vertically or horizontally
- Connection: 40 V DC
- Dimensions: 132mm x 297mm x 67mm
- Weight: 1.8kg
