

Cut

Medium Duty

## Dexterity with superb cut resistance for optimal productivity

The HyFlex® 11-627 delivers perfect balance of comfort and sure handling with superior cut resistance

The liners have an innovative yarn structure that contains an optimal rate of Dyneema®. This offers high levels of cut resistance

For a safe use in controlling, handling and assembly applications involving contacts with sharp pieces

The spandex in the liners of these gloves, as well as the polyurethane coating, provides excellent flexibility and fit

Designed for use in dry, as well as slightly oily environments

### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

### Applications

- Handling parts with sharp, rough edges
- Handling rough machined metal parts
- Assembly & inspection of components
- Press injection molding
- Picking, fastening components
- Assembling and mounting components
- Handling materials with sharp or rough edges
- Cutting glasses, sheets, panels

#### Key Features

- The special formulation of the polyurethane coating gives the gloves flexibility and fit, as well as a secure grip on dry to slightly oily pieces for sure handling in a wide range of environments
- Unique combination of Dyneema®, Nylon and spandex
- Ultra strong fibers provide extreme resistance to cuts and burrs
- Also available in vend pack

#### Vulcanization Chemical Accelerators

- Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

#### Performance Standards & Regulatory Compliance

##### REACH Compliant
