

70-215

Medium duty cut resistant gloves

Previously known as: Neptune[®] Kevlar[®] 70-215

Superior mechanical protection and cut-resistance

- The 100% Dupont Kevlar[®] construction offers a very high cut resistance to weight ratio. The use of Terry loop technique enhances heat insulation. The resulting thicker-walled glove offers high shock absorption without losing dexterity
- Thanks to the Neptune[®] coating the glove fibres repel liquids, avoiding damage to the Kevlar[®] strands and extending glove life.
- The reinforced thumb welt increases abrasion resistance also adding to glove durability. The ambidextrous gloves are fully washable and can be re-used many times
