SC Johnson PROFESSIONAL A Family Company®

Stokoderm® Protect

General Skin Protection Cream

PRODUCT DESCRIPTION

General purpose perfume-free skin protect cream to help protect the skin against light to moderate exposure to water and non-water based workplace contaminants.

WHERE TO USE

Suitable for most workplaces to protect against light to moderate exposure to oil-based and water-based substances (such as oil, grease, lubricants and detergents) where gloves may be in use.

NB: Where possible skin exposure to potentially harmful substances and environments should be avoided through the implementation of safe working practices and the use of appropriate Personal Protective Equipment. Where skin exposure cannot be avoided, it is recommended to use an appropriate skin protection cream as part of a complete skin care programme to reduce the risk of occupational skin disease.

INSTRUCTIONS FOR USE

Before Working:

- Apply 1 dose (1 ml) to clean and dry skin before starting each work period and after washing hands.
- Rub on all areas of the hands, including between the fingers and around the fingernails.

FEATURES	BENEFITS		
Proven general purpose protection	Suitable for a wide range of working environments with exposure to varying types of water and oil based substances.		
Quick drying	Leaves a pleasant, non-tacky protective film on the skin to encourage regular use and not affect dexterity with hand held tools.		
Contains Xanthan Gum	Highly effective polymer which is used to stabilise the protective film provided by the product when applied to the skin		
Contains Kaolin	A natural mineral which sits in the skin pores, to help prevent them from becoming blocked by oil-based substances.		
Contains Glycerin	A skin moisturiser to help prevent drying and leave the skin feeling smooth after use.		
Suitable for food facilities	Product has been independently evaluated and trace amounts of the product are not expected to cause adverse toxicological effects. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.		
Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.		
Perfume-free	Designed for people who are sensitive to perfumes and who prefer products which do not have this added.		
Silicone-free	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.		
Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.		

Stokoderm[®] Protect

General Skin Protection Cream

STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying with Regulation EC No 1223/2009 (as amended) on Cosmetic Products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from www.scjp.com/msds.

SHELF LIFE

This product has a shelf life of at least 30 months from the date of manufacture when stored unopened at room temperature. For shelf life after opening: see indication on packaging.

Suitable for use in food handling

The use of Stokoderm[®] Protect as per usage instructions, does not influence the quality and safety of foodstuffs.

The product has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows -

- Impact on smell and taste of foodstuffs The formulation has been independently tested according to 'Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007' and proven to not have the potential to taint food.
- Possible toxic effects of ingredients An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow cosmetic Good Manufacturing Practice (cGMP) requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

Toxicological Approval

INGREDIENTS

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

Allergy sufferers should always refer to the ingredient list before using the product.

AQUA (WATER), KAOLIN, CETEARYL ALCOHOL, DICAPRYLYL CARBONATE, GLYCERIN, XANTHAN GUM, PHENOXYETHANOL, DIAZOLIDINYL UREA, SODIUM LAURYL SULFATE, SODIUM CETEARYL

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of Stokoderm* Protect in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Stokoderm[®] Protect in rubber production process does not influence the cohesive strength of rubber.

EFFICACY TESTS

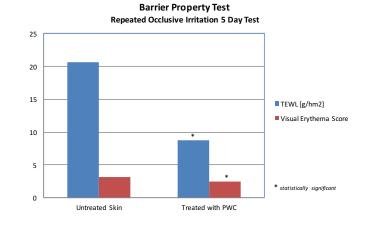

Human Repeat Irritation Patch Test (HRIPT)

11 day HRIPT testing shows that Stokoderm® Protect is effective in reducing irritation caused by the water based contaminant Sodium Lauryl Sulphate.

Barrier Property Test

Repeated Occlusive Irritation Patch Testing using 14 healthy panellists was conducted using one water soluble substance (Sodium Lauryl Sulphate) and one non-water based substance (Ethyl Acetate/Undecylenic Acid, 1:1). Each substance was applied at one time per day for 30 minutes over 5 days, alternating the water-based substance in the morning and non-water based in the afternoon.

Results show Stokoderm® Protect significantly reduces the Visual Skin Erythema and Trans Epidermal Water Loss (TEWL) compared to unprotected skin.
