

### Cleaning with convenience

There are many things that should be present in a good backpack vacuum cleaner. It should be light in weight, with even weight distribution, and the noise level must be as low as possible.

At the same time, the power needs to be sufficient for fast, effective cleaning, and the dust bag must be large enough to avoid constant changing.

Without these basics, a backpack vacuum cleaner is uncomfortable and impractical to operate. The Nilfisk GD 5/10 backpack vacuum cleaner meet these criteria and more.

### PRODUCT FACTS

- Low sound level for operator comfort and cleaning in noise sensitive areas
- Good filtration with HEPA filter option
- Suitable for left or right handed use
- Containers in different sizes to fit the application
- 15 metre detachable cable with safety release saves time
- Lightweight vacuum cleaner and a harness that is ergonomically designed reduce fatigue
